

Naman Bikram Karki

Maitidevi, Kathmandu

My name is Naman Bikram Karki, and I'm a committed student of computer science located in Kathmandu, Nepal. I'm enthusiastically delving into the realm of technology, eager to kickstart my career journey through an internship opportunity.

Experience

E-commerce Website (HTML, CSS, PHP): Designed and developed a full-fledged e-commerce platform utilizing HTML for structure, CSS for styling, and PHP for dynamic functionality. This project honed my skills in:

- 1) Building user-friendly interfaces for product browsing and purchasing.
- 2) Integrating a database to manage product information and user interactions.
- 3) Implementing secure payment processing mechanisms (if applicable).

Portfolio Website (React): Constructed a dynamic and interactive portfolio website using React to showcase my skills and projects. This experience deepened my understanding of:

- 1) Building reusable UI components for a consistent and engaging user experience.
- 2) Leveraging Reacts component-based architecture for efficient code management.
- 3) Creating stateful components to handle user interactions and data updates.

Travel Web App (MERN Stack): Developed a comprehensive travel web application using the MERN stack (MongoDB, Express.js, React.js, and Node.js). This project broadened my expertise in:

- 1) Designing a robust backend using Node.js and Express.js for server-side operations and API development.
- 2) Managing data storage and retrieval using MongoDB for travel-related information.
- 3) Creating a data-driven frontend with React.js to provide users with an interactive travel planning experience.
